Subject: For Review: New West Lake web page design

Karl,

For your review: OPA and PLMG have worked together to redesign the West Lake Landfill page. We focused on being more visual and pulling current information up to the top page.

http://kodiak.r07.epa.gov/region07/cleanup/west_lake_landfill/index_new1.htm

Some Caveats on the link:

- The three upper boxes will be updated prior to launch.
- We'll likely make very **minor tweaks** before launch, but they won't affect the overall design.
- The four links under the "What's New" box go to an **archive page**, which will include all WL documents when launched and will be continually updated.
- The page can only be viewed on a computer **while in the office** (via direct connection or R7 wifi), because the page is on an internal web server.
